

SCIENCE NETWORKING MEETING

Facilitated by Kevin Anderson, DPI Science Consultant

March 10, 2016

8:30-3:00

CESA 2

1221 Innovation Drive

Whitewater, WI 53190

The primary purpose of this day will be to support district work in science program improvement with an emphasis on networking. Kevin Anderson, DPI Science Education Consultant, will facilitate the day, providing resources and ideas throughout. While we will work with a lens of NGSS, our discussion will be relevant to districts building from the WMASS, NRC Framework, or other standards documents. Topics for the day will include:

- Lesson and Unit Design
- Effective Science Assessment and the New Forward Exam
- Ideas for Reviewing Curricular Materials
- Other topics suggested by the group (such as integrating engineering and which engineering materials are being used).

We have significant time for networking throughout the day.

Event Fee: **\$30 per person (includes lunch and snacks)**

To register, go to <http://www.myquickreg.com>

For registration questions, please contact Sharon Anderson at sharon.anderson@cesa2.org

For workshop content questions, please contact Kevin Anderson at kevin.anderson@dpi.wi.gov

If you need special accommodations, registration and payment must be made three weeks before workshop.

Cancellation Policy: Participants must cancel more than 48 hours from this event or will be billed. Persons registering and not in attendance on the day of the session will be charged the full registration fee.
