*Uniquely Human:
A Different Way of Seeing Autism by
Barry Prizant*

Autism therapy typically focuses on ridding individuals of “autistic” symptoms such as difficulties interacting socially, problems in communicating, sensory challenges, and repetitive behavior patterns. Now Dr. Barry M. Prizant offers a new and compelling paradigm: the most successful approaches to autism don’t aim at fixing a person by eliminating symptoms, but rather seeking to understand the individual’s experience and what underlies the behavior.

March 7 – April 11, 2016

Cost: \$175 for non-Flagship Districts

\$100 for Flagship Districts

Registration: www.myquickreg.com

1(one) Credit available through Viterbo University for an additional \$200

Register by February 22, to receive a complimentary copy of this book.
