

Investigating the Common Core State Standards (CCSS)

Middle & Secondary Mathematics—February 3rd, 2011
Elementary (K to Grades 5/6)—February 4th, 2011
9:00 – 2:30 at CESA #3

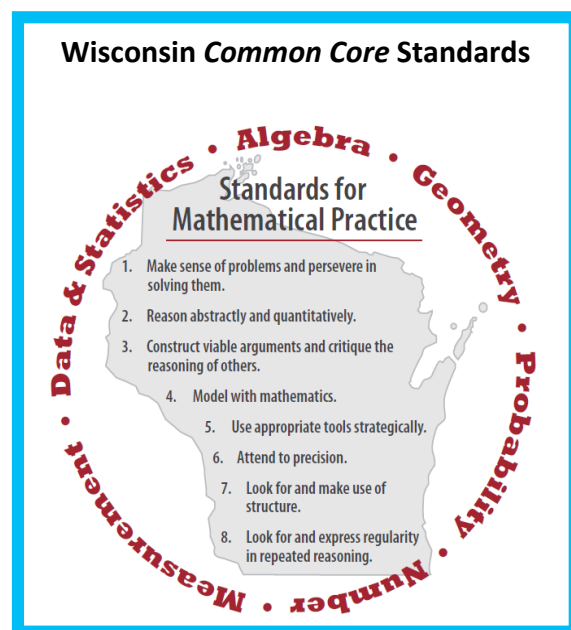

Workshop Goals:

- To understand the underpinnings of the CCSS
- To understand the critical focus areas by grade level
- To investigate grade level standards
- To explore “mathematical understanding”
- To learn how to investigate the CCSS
- To reflect on implications to your practice

Agenda

- Background and Foundations of the Standards
- Investigating Grade Level Intent
- Investigating the Structure of the Standards
- Investigating Standards for Mathematical Practice
- Investigating Mathematical Understanding
- Investigating the Expectations for Understanding
- Investigating Two Standards
- Investigating Vertical Connections
- Determining Implications and Action Steps

To register your Math Team, go to MY Quick Reg on the CESA #3 Website.
Participation is free for CAT members and \$200 per person for non-Cat members.
