S.M.A.R.T. is a multi-sensory approach to teaching and learning that is designed to develop and enhance the critical readiness skills students need to succeed in school. The S.M.A.R.T. Pre-K training helps participants understand how to look at children developmentally and apply activities for developing and/or enhancing students' large and fine muscle skills, visual perception and eye-hand coordination, auditory skills, and all necessary tools for learning to read and achieving academic success.
