BrightBytes

What Impact Is Technology Having on your Students' Learning?

JOIN US ON MAY 23, 2016 TO FIND OUT!

CESA 6 has partnered with BrightBytes to help empower 21st Century skill development and increase the impact technology has on your students' learning. Please join us for a FREE day of thought leadership and team planning around your Clarity Technology & Learning data, hosted by CESA 6, and led by BrightBytes' Wisconsin's Educational Research Partner, Karen Goldstein.

May 23, 2016
8:30 AM to 3:00 PM
CESA 6

CESA 6
SMART THINKING.

AGENDA

8:00 Check In

8:30 – 11:30 AM

Explore the Technology & Learning module to:

- Envision 21st Century wants & needs
- Dig in to and analyze your CASE data
- Strategize quick wins & longer-term projects

12:30 – 3:00 PM

Work as a cross functional team to:

- Consider how to manage the complex process of change
- Identify priority data points and strategies to address them
- Collaborate across the CESA
- Plan: leave with a plan that includes concrete goals for action around technology integration.

WHO

School Teams including leaders responsible for Curriculum, Technology, Professional Development; building Principals, Instructional Coaches and innovative teachers—in short anyone who is part of creating and implementing your vision of technology integration!

WHAT

Learn how to use the Technology and Learning module's research and analysis to advocate for resources, support decision-making, and prioritize learning initiatives. This workshop will empower you to use the CASE framework to better allocate technology resources and to respond quickly to the diverse needs of students and teachers.
