2016 CESA 4 Middle/High School  
SCIENCE SOLUTIONS PILOT

All CESA 4 schools are invited to take part in a **no cost, no risk** pilot beginning April 7, 2016.

Interested teachers will have full-featured access to two, NGSS aligned, web-based solutions designed to bring truly innovative learning experiences to the secondary science classroom.

The pilot will end June 10th which will allow sites to experience both solutions within a 9 week instructional cycle. This will provide ample time for teachers to assess content, design and student engagement.

As more schools abandon traditional textbook purchases and move toward on-line digital resources to support instruction, these types of solutions will continue to gain momentum in our state and beyond.

**See for yourself! SIGN-UP DEADLINE: MARCH 31st**
