Mindset Book Study

Banish math anxiety and give students of all ages a clear roadmap to success "Mathematical Mindsets" provides practical strategies and activities to help teachers and parents show all children, even those who are convinced that they are bad at math, that they can enjoy and succeed in math. Jo Boaler--Stanford researcher, professor of math education, and expert on math learning--has studied why students don't like math and often fail in math classes. "Mathematical Mindsets" provides a proven, practical roadmap to mathematics success for any student at any age.
