

MINDSTORMS

LEVELING UP YOUR LEGO® MINDSTORM LEARNING

Convert your classroom into a hands-on, robotics laboratory!

CESA #4 has added sets of LEGO® Mindstorms to its STEM Inquiry Resource Library for educators' classroom use in the CESA #4 region! A two-day training is required for any educator seeking to check out and implement these valuable learning devices into classroom instruction.

**Price Reduced due
to Grant Funding!**

November 02, 2016

(REGISTER BY CLICKING DATE ABOVE)

NOW ONLY
\$100.00 per person
TEACH 2.0 grant eligible!

9:00am—3:00pm
Breakfast and lunch provided

This is an opportunity for educators to investigate more of the functions and usability of the software programming! Users will investigate an Engineering Design activity from the Engineering Curriculum Lego Pack.

Participants must have attended the two-day LEGO® Mindstorm training to be eligible for this workshop.

**New sensors to explore:
temperature probe, infrared beacon
& infrared sensor**
