Understanding & Learning WISEid & WISEdata

Location: CESA 12, 618 Beaser Avenue, Ashland, WI 54806
Date: September 13, 2016
Registration Start time: 8:30 AM
Training Time: 9:00 AM-2:00 PM

Districts are encouraged to come to this workshop to learn the state side of WISEid, Ed-Fi Credentialing and WISEdata. This workshop is for all vendors, as the majority of time will be spent on the state tools.

- See the WISEid process. Including taking a file from your student information system, uploading to WISEid, working with matches, updating student data, reporting duplicates and downloading a file for import back into your student information system.
- Understand how to select your Student Information System in the Ed-Fi Credentialing tool.
- Learn how to review the data in WISEdata and make corrections.
- Learn about the resources available to school districts to assist you with these new tools.

Prior to coming, please ensure that upon logging into Secure Home, the attendee has access to the WISEid application, Ed-Fi Credentialing Application and WISEdata Application. If you do not have access, your District Application Security Manager (ASM) will need to give you access. Resources on how to do this can be found here: http://dpi.wi.gov/wisedata/help/training Please note, Ed-Fi Credentialing and WISEdata tools are NOT YET available in ASM. They should be towards the end of August.

Presenter(s)
Kelly Ryder, CESA 12 Consultant
Lori Mattes, CESA 12 Program Assistant
