Network with other districts about implementing PRESS interventions

Audience: Full day workshop for participants who have completed PRESS training and have begun implementation at any level.

Morning Session: CESA 2 staff will facilitate discussion and sharing of progress in PRESS implementation.

- Learn how others are implementing PRESS
- Learn how others are problem solving for groups/individual students

Afternoon Session: Kathy Patton will lead a workshop

- Next steps in progress monitoring
- What to do if it's not working

Making Decisions with Progress Monitoring Data

Learn to examine progress monitoring data and analyze the impact of interventions. A focus is placed on continuous progress monitoring, both at the skill and grade level. The process of regular examination of student data is explored and reinforced by systematic protocols that guide next steps in intervention decision making. We also demonstrate a tier 2 problem-solving process that guides participants through systematic review for those students not making progress in targeted interventions.

To make use of the content in this workshop, participants should have implemented PRESS tier 2 interventions and collected progress monitoring data.

Past participation in a PRESS tier 2 interventions workshop is required.

Cost: \$100 per person (includes lunch)
