Networking and shared professional development opportunities make a significant contribution to quality of work life for professionals working with young children with disabilities and their families. Early Childhood Networking meetings are offered to all persons in the CESA #2 region that are interested in:

- ◆ Early care and education topics for children birth to eight years old
- ◆ Networking with other districts and agencies
- ◆ Regular updates on state initiatives, research and best practice

The goal of the Early Childhood Networking event is to create a community in which learning occurs through collaboration, information sharing and exploration of best practice with the focus on current topics in EC.
