

CESA TEACH Grant Consortium Funding 1 Events

CESA TEACH Grant Consortium Mission

The CESA 9 TEACH Consortium events will serve as professional development for our teachers in developing a comprehensive teacher lead instructional technology coaching model. Our goal is to sharpen the focus on how technology can best make the learning more meaningful, engaging and relevant for students, and give teachers strategies and best practices in navigating the vast field of technology applications, devices, and blended learning models.

The CESA 9 TEACH Consortium will bring districts together to discuss quality instructional technology coaching. This includes: providing resources and structuring professional development to bring technology integration back to the rest of their staff.

CESA 9 TEACH L.I.T Workshop 1 *Leading with Instructional Technology*
