

## Crisis Prevention and Preparedness: Comprehensive School Safety Planning

Schools play a critical role in meeting the needs of students, staff, families and often the local community during times of crisis. PREP<sub>a</sub>RE is the **only** comprehensive curriculum developed by school-based professionals with firsthand experience and formal training. The curriculum builds on existing personnel, resources, and programs; provides for sustainability; and can be adapted to individual school needs and size. The PREP<sub>a</sub>RE curriculum has been developed by the National Association of School Psychologists (NASP). For more information:
