# INTEGRATED NETWORKING SESSIONS

Effective multi-level system of support (PBIS/Rtl) implementation in schools, leads to improved student engagement, academic and behavior outcomes. These sessions are an opportunity for school practitioners to connect with other schools and share strategies that work. Resources will also be shared that are geared towards implementation within the school context. If appropriate, a school may be chosen to highlight a specific Equitable Multi-Level of Support key system feature within their current implementation.
