

# Implementing Wisconsin's Science Standards

Kevin Anderson, DPI Science Consultant, will be at CESA 9 to discuss Wisconsin's newly-adopted Science standards. At this workshop, teachers will network around topics such as: creating course sequences, aligning WSS/NGSS standards with high school courses, connecting to ACT, defining college and career readiness, assessing authentically, best practices in science instruction, identifying and using resources, integrating engineering, and any other topics of interest to the group.

**AUDIENCE: PREK-12 TEACHERS, SCIENCE TEACHERS,  
CURRICULUM LEADERS, STEM LEADERS AND ADMINISTRATORS**

Presenter: **Dr. Kevin Anderson, DPI Science Education Consultant.** Kevin received his Ph.D. from the Department of Educational Leadership and Policy Analysis in 2012, with a focus on K-16 educational leadership and policy. He received his bachelor's in sociology and master's in social sciences in education from Stanford University.

Kevin was previously the school improvement consultant at Cooperative Educational Service Agency #2 (CESA) supporting teachers and administrators in improving STEM programs. His career and research focuses on evaluating effectiveness of STEM education policy and using a better understanding of professional epistemologies to improve STEM education. He is currently leading the charge to set up a statewide Wisconsin STEM network.
