

Foundations of Personalized Learning

Have you heard about personalized learning but are unsure what it's all about?

Do you know a little bit about it, but want to take it to a deeper level?

The Foundations of Personalized Learning workshop is intended for those new to the concepts of personalized learning and for those who need a bit of a refresher. Topics covered during the one-day training include:

Why – Making the case for changing to a learner-centered educational system

What – Defining a framework for personalizing learning

How – Strategies to get started

Participants will discuss the characteristics of POWERful learners:

- Purpose
- Ownership
- Wonder
- Efficacy
- Responsibility

The workshop will explore the Institute's honeycomb model of personalized learning and change strategy for moving to a personalized learning eco-system. Participants will leave the session with tips and strategies to begin implementing personalized learning in their classrooms right away.
