

# Tech Tools to Support All Learners

How do we get the greatest impact on student learning with the technology tools we have in our classrooms? What are other educators doing with technology to support students in their classroom? What role does technology play in Universal Design for Learning (UDL)?

Participants in this workshop will have the opportunity to:

- learn about and "test-drive" a variety of tech tools
- develop and apply UDL understanding as they discover ways technology can remove barriers for learners
- receive supported planning time to implement strategies into the classroom

**Date:** March 6, 2018

**Time:** 8:30 am—3:30 pm

**Location:** CESA 9, Tomahawk

**Audience:** K-12 Teachers, Library Media Specialists, and Technology Integrators
