

Children's Vision Screening Training

Learn the proper way to screen children's eyes for vision problems. The morning training covers aspects of children's vision screening, vision milestones from Birth to preschool age children, overview of common eye problems found in preschool/school age children, current protocol and best screening tools to use.

Participants will have hands on practice in using the screening tools. Certification is valid for 3 years. The afternoon we will be networking and learning from vision specialists on various topics.
