

YRBS Data Dig & Action Planning

April 5, 2018

9:00 am - 2:00 pm

Every other year, schools have the opportunity to administer the Youth Risk Behavior Survey to their students. The survey asks about their perceptions, attitudes, and behaviors relating to alcohol, tobacco, drugs, suicide, bullying, and school connected-ness. This same survey was completed in previous years, so participants will have an opportunity to assess changes.

The results have now been compiled and you are invited to participate in an important discussion to analyze those results AND use that data to make decisions about future efforts in your community and the county. School and community experts will share resources available to your school community and participants will have time to collaborate about best practices regarding education and prevention.

Registration Details

- Free for CESA 5 AODA Grant Districts
- \$120 All Others
