My Apps Can Talk!
August 24, 2011
CESA 5
626 E. Slifer St., Portage

AM only (8:30-12:00) TouchChat - $75
PM only (12:30-4:00) Proloquo2Go - $75
Full Day – TouchChat & Proloquo2Go - $125

 TouchChat only (8:30-12)

Have you purchased the Communication App, TouchChat, but don't have the time to learn how to customize it for your students? This half-day workshop can help you get started. We will start with a short overview of "iDevices", syncing, updating and management. But our focus will be exploring all of the page sets (including WordPower), then customizing them for your students. You will learn how to import pictures, edit messages and pages, create new page sets, and more. We will also look at some of the free or lower cost communication apps such as Tap to Talk, TS Button and the Lite versions of communication apps. A limited number of iPads with both apps are available for anyone who does not have their own, but reservation is required on a first come first served basis. Please register at myquickreg.com

 Proloquo2Go only (12:30-4:00)

Have you purchased the Communication App Proloquo2Go, but don't have the time to learn how to customize it for your students? This half-day workshop can help you get started. We will start with a short overview of "iDevices", syncing, updating and management. But our focus will be exploring the existing page set and learning how to customize it for your students. You will learn how to import pictures, edit messages and pages, create entirely new page sets, and more. We will also look at some of the free or lower

cost communication apps such as Tap to Talk, TS Button and the Lite versions of communication apps. A limited number of iPads with both apps are available for anyone who does not have their own, but reservation is required on a first come first served basis. Please register at myquickreg.com
