This professional learning opportunity is designed for teachers and school leadership teams to use Thinking Maps as a common visual language for applying and improving thinking processes, communicating ideas and points of view, and assessing progress over time. Thinking Maps is a visual thinking tool that provides a systemic approach for all students to access content.

By visualizing our thinking, we create concrete images of abstract thoughts. These patterns help all students reach higher levels of critical and creative thinking by utilizing consistent visual patterns linked directly to eight specific thought processes. Leave this workshop with the materials and resources you need to use Thinking Maps in your grade level or content area.

About the Presenter:

Tere Masiarchin provides high quality and relevant professional development, needs assessment, and program support to school districts and teachers with culturally and linguistically diverse students. Tere comes to CESA 2 from CESA 6 where she was the Director of the Language and Culture Center. Tere had previously spent 11 years in the Clintonville School District as the EL/Bilingual/Title III/21st CCLC Director and has been an adjunct professor at the UW-Green Bay. Tere is a national SIOP trainer and Thinking Maps Trainer.
