## Description

Educators recognize the need for timely, effective nonviolent interventions with students who exhibit challenging behaviors. They know that such interventions improve the physical safety of all participants and create a more trusting and caring learning environment. The Nonviolent Crisis Intervention® program is a safe, non harmful behavior management system designed to help educational and human services professionals provide the best possible Care, Welfare, Safety and Security of disruptive, assaultive, and out-of-control individuals. The new enhanced NVCi programming provides the same core program, now with additional content and new physical intervention options. Note: All training will be the Enhanced Training content. Due to CPI quality standards, trainers will no longer be teaching the legacy version of the NVCi content

## Workshop objectives

- Identify the appropriate measures to avoid, decelerate and/or de-escalate a crisis situation.
- Assess the level of risk associated with a crisis situation and intervene appropriately.
