

Chromebooks: Collaboration and Creation

Learning Targets:

- I can identify ways to use Chromebooks in my classroom to create an equitable learning environment.
- I can develop collaboration and creation activities using Chromebooks for my students.
- I can actively contribute to a growth-oriented professional learning community.

This workshop will have unique learning opportunities facilitated by teachers for teachers in a mini-conference setting! Breakout sessions will meet the needs of all teachers, novice to expert in using Chromebooks in the Classroom. Teachers will develop strategies and learning activities to implement Chromebook management, usage, and application in their classrooms.

*Note: If you are interested in sharing expertise at this event, please email Mia Chmiel at mchmiel@cesa9.org. Only a few presentation spots are available...so act fast!
