

2018-2019 CESA 8 Library Media Specialists Networking Meetings

Wisconsin Administrative Code PI8.01(2)(h) requires districts to develop and implement a long-range library plan. With the changes in requirements and form of these plans, as well as staffing changes in districts, library plans have often been neglected in recent years. A long-range plan developed utilizing the Future Ready Librarian framework allows for library programs to effectively increase student achievement, provide equitable resources to all, and be a key collaborative part of learning initiatives.

These three meetings will give library media specialists an opportunity to work side-by-side with Monica Treptow (DPI School Library Consultant) and regional library media specialist to develop a meaningful, integrated library and digital learning plan.

Dedicated networking time will also allow for a sharing of local successes as well as time to collaborate to solve local challenges.
