Five-Day Workshop Series Description

The Wisconsin Standards for Social Studies (2018) have been adopted by the Wisconsin State Superintendent. The new standards provide a foundation that identifies what students should know and be able to do in their social studies class.

During this workshop, you will gain an understanding of the New Wisconsin Standards for Social Studies, and learn how to integrate them into your curriculum.

You can choose to attend specific days, or the entire series. Your choice! See the backside of this page for more information about each session.

Workshop Series Descriptions:

November 20, 2018

Wisconsin Revised Standards for Social Studies: The Foundational Work

There are significant shifts in pedagogy and student expectations with the revised WI Standards for Social Studies. This session will introduce shifts in pedagogy and student expectations in the new standards, learn about the inquiry arc, an essential part of quality social studies teaching and learning, and provide time to unpack and repack the standards.

Future WISSS workshops will assume attendees have learned this material

Wisconsin Revised Standards for Social Studies: Disciplinary Literacy

The Wisconsin Standards for Literacy in All Subjects, adopted in 2011, require all teachers, K-12, in every content area, to consider discipline-appropriate literacy techniques (also known as disciplinary literacy) with their students. How do the WI Standards for Social Studies tie to DL? Very well. Learn connections between the two documents, resources for incorporating DL into classrooms and curriculum, and have time to review your existing curriculum for gaps.

January 23, 2019

Wisconsin Revised Standards for Social Studies: Elementary

This session is designed for elementary teams involved in social studies standards rollout. An exciting component of the revised standards is an increased structure for districts who want it for K-5. The standards are sorted into grade level bands (K-2, 3-5), but also into grade level suggestions for teaching and learning. In addition, an appendix for a suggested K-5 scope & sequence for social studies offers a foundation for districts to open discussions about what they want their students to know and be able to do in social studies before leaving 5th grade. Dig deep and build a quality elementary social studies program!

March 5, 2019

Wisconsin Revised Standards for Social Studies: Integration of State Requirements

Learn how to leverage the inquiry approach of the newly revised Wisconsin Standards for Social Studies to integrate other required content areas through authentic, interdisciplinary learning experiences. Explore connections to American Indian Studies (AIS), Environmental Literacy and Sustainability (ELS), and Information Technology Literacy (ITL) in the social studies classroom.

May 9, 2019

Wisconsin Revised Standards for Social Studies: Civic Engagement, Reflection, Lessons Learned, Year 2 Planning

There is a new focus on civic engagement in the revised standards. But what does that mean? Take some time to learn about the new civic engagement movement across the country, in our standards, and what it could mean for your classroom. We will also spend time reflecting on the Year 1 work, see what worked for you and what didn't, and plan for next years' curriculum work!
