

# Continuous Improvement Series

These events are offered as a three part series, with each workshop building on the next.

## Part I: March 1, 2019 - 9:00AM-3:00PM

- Understand WI's Continuous Improvement Process and build readiness for change.
- Learn about the work of a School Improvement Team.
- Acquire knowledge of leadership skills that can support improvement efforts.
- Conduct a focused ESSA and/or IDEA data inquiry using the WISE Inquiry Process with specific emphasis on student data inquiry, priority findings, root cause analysis, and practices inquiry.

## Part II: March 26, 2019 - 9:00AM-3:00PM

- Learn about next steps in the WISE Inquiry Process (analyze practices inquiry findings, selecting innovations, planning for implementation).
- Gain basic understanding of Implementation Science.
- Acquire knowledge of leadership skills that can support improvement efforts.
- Create an improvement plan that includes measurable goal(s), strategies/innovations for improvement, action steps, and timeline of monthly meeting dates and times.

## Part III: April 26, 2019 - 9:00AM-3:00PM

- Continue to deepen knowledge of Implementation Science.
- Begin constructing practice profile.
  - Identify method for measuring changes in practice (fidelity assessments, monitor implementation).
  - Identify method for measuring changes in student learning.
- Refine the Implementation Plan with individual coaching and support.
