

Unpack & Repack and District Planning ITL Standards

(Wisconsin Information and Technology Literacy)

“The [Wisconsin Information and Technology Literacy] standards are designed to be integrated into the various content and skill areas of the school curriculum. The focus is on learning with information and technology rather than learning about information and technology.”

Overview/Description:

These two sessions are designed for district teams or individuals involved in the rollout of the Wisconsin Information and Technology Literacy Standards. Participants will examine the Wisconsin Digital Learning Plan, understand the intersection of this plan to the Future Ready Framework, and create a plan for district implementation. Participants will be given time to unpack and repack the standards.

Please bring a fully-charged electronic device and a copy of the [WI ITL Standards \(Google\)](#) or [PDF](#)

Who should be part of your ITLS team?

Integrated District Office Leadership Team

Cross school-wide teams

Coaches, Technology Integrators, Library Media Specialists
