

TA Network

Facilitated Assessment Day

Facilitated by: CESA 8 RSN & RtI Center Staff

Participants: Teams of 3 or more school staff that support academic (RtI) and/or behavioral (PBIS) systems of support. Please attend as a team.

The Wisconsin RtI Center's School-wide Implementation Review (SIR) and the National PBIS Network's Tiered Fidelity Inventory (TFI) are excellent tools to use to **annually** monitor your school's progress when implementing an Equitable Multi-level System of Support. The assessments help schools **plan for further implementation**. The assessments provide immediate feedback showing your current level of implementation and specific steps to continue your journey. When completing assessments for two or more consecutive years, the reports give growth information for your school.

Additional benefits of taking the assessments include:

- Clearly setting your school's path to high levels of learning for ALL children
- Establishing a baseline for implementation
- Demonstrating growth around systemic equitable practices
- Affirming the importance of effective evidence-based academic/behavioral/social-emotional instructional practices
- Documenting to stakeholders areas of growth and refinement
- Interpreting the results and developing action steps
- Connect to continuous improvement outcomes

In order to take the TFI and get the results immediately, you will need to conduct some interviews with a few staff and students (10) prior to February 19, 2019. Contact Jennifer, email: jgrenke@cesa8.org for more information regarding the TFI by February 8, 2019.

Tuesday, Feb. 19th, 9am-2:30pm

CESA 8

223 West Park Street

Gillett, WI
