

OUR TEAM

When the Environmental, Health and Safety (EHS) program began in 1994 there was one, full-time employee to provide environmental, health, and safety services to six school districts. Today, the EHS team of consultants and technicians serve more than 115 contracted customers, including more than 25 percent of the school districts in Wisconsin. Our specialized team includes Certified Asbestos Inspectors, Asbestos Management Planners, Lead Hazard Investigators, and Certified Asbestos Supervisors.

WHO SHOULD ATTEND?

The Asbestos Refresher course is designed for people who encounter and/or disturb asbestos while conducting maintenance-related activities during the course of their work. The purpose of this training is to ensure compliance with state and federal regulations. The following topics will be covered during the training session:

- **The background of asbestos**
- **Health effects**
- **Personal protective equipment**
- **Recognizing deteriorated asbestos**

This mandatory training is required to meet the OSHA asbestos regulations adopted by Wisconsin Department of Safety and Professional Services. If you or your staff perform operations and maintenance activities at your facility, then this training must be taken on an annual basis.

This course is a refresher of the two-day initial course, which satisfies the OSHA training requirement for people who perform Class III asbestos activities.

REGISTRATION COST

Cost for this training is \$100 per person and includes refreshments and lunch. Please note any dietary restrictions on your registration form.

Registration opens at 7:30 am. The training will run from 8:00 - 11:30 am with lunch to follow.

TRAINING LOCATIONS

CESA 10 will offer the Asbestos O&M Refresher course on the following dates/locations:
