

Supporting Students with Autism and Beyond

CESA #12 Conference Center
Thursday, March 5, 2020

- *Evidence based strategies to support emotional and physical regulation, anxiety reduction, and mindfulness.*
- *Use environmental considerations, apps, and video modeling to develop whole class and individualized supports.*

Presenter: Sharon Hammer, MS, PC - Educational & Behavior Consultant, Licensed Professional Counselor with over 20-years of experience working with children and individuals on the autism spectrum and their families.

Sharon has co-authored two books and DVDs about using technology to support individuals with autism, entitled Lights! Camera! Autism! With Star Cinema. Sharon co-created the first "Sensory Friendly" movie going experience in the state of Wisconsin. Sharon is committed to increasing awareness and possibilities throughout the community for individuals on the spectrum.
