WISEdash101: Using Data to Action Plan

TA Network Event
Save the Date

June 12, 2019
9:00 AM – 3:00 PM
CESA 8 Office

Purpose/Learning Outcomes:
Participants will:

- Enhance their own capacity to support educators in the use of state and local data systems and tools
- Increase their own data literacy with Wisconsin data, data systems, processes and tools to apply during data inquiry.
- Experience hands-on practice in current WISEdash functionality, dashboards and tools in the context of meaningful inquiry.

Why Attend:
This session will start building the data literacy process for a district team. The data work will be on-going and embedded into the 19-20 TA Network events. It will support the concept that data review/understanding/literacy/application is an on-going process connected to the continuous improvement work of a district team.

Who:
Training is designed for teams to attend to build district/school in-house data literacy capacity.

Recommend team consists of: Administrator(s), Literacy Leader(s), Special Education Staff, General Education Staff

Prepare/Bring:
Participants should have access to their school's WISEdash Secure Portal.

Cost: $25 per participant

Registration: myQuickReg.com
