

# DLM and Instructional Supports Aligned to Alternate Standards

May 8, 2019  
8:30 am - 3:30 pm  
CESA 9, Tomahawk

Attendees will have an opportunity to view their students DLM core reports and learn how this information along with classroom performance can assist in planning instruction and developing IEP goals.

- Interpret your students' DLM assessment reports and other assessment data to guide instruction and IEP goal writing.
- Overview of how alternate standards connect to general education curriculum.
- Review of materials and resources used for instruction aligned to alternate standards.
- Collaborate with others to share knowledge, new ideas, and resources.
- Opportunity to share and problem solve challenging student situations.

**Please bring IEPs and DLM score reports.** Work time will be provided to interpret your students score reports and apply that information to your instructional planning and IEP goal writing.

## Our presenters:

**Iris Jacobson, Education Consultant, Special Education, Wisconsin Department of Public Instruction:** Iris is currently an Education Consultant for the Department of Public Instruction (DPI) on the Special Education Team. Her focus at DPI is centered on alternate achievement standards and alternate assessment.

**Michael Peacy, Educational Consultant, Office of Student Assessment, Wisconsin Department of Public Instruction:** Michael is currently an Education Consultant for the Department of Public Instruction (DPI) working in the Office of Student Assessment.

**Audience:** Special Education Teachers, Directors of Special Education, School Psychologists

**COST:** \$25 per person
