Workshop Description:

CESA 2, in collaboration with CESA 4 and Green Bay Area Public School District, brings the ISTE Certification to Wisconsin!

You make a difference in the lives of our learners every day! With that in mind, are you reaching all learners? Are they engaged and empowered?

Find out how you can take designing, teaching, and learning to the next level with the ISTE Educator Standards Certification. This certification is rigorous, relevant, and will support and give you the mindset, tools, and resources to modernize your pedagogy.

With the 2-day face-to-face workshop, and online modules and portfolio work, you will be able to apply your new learning right away!

What Educators are saying:

"By becoming an ISTE Certified Educator, you're telling the world you're an educator who uses research-based practices, curates and integrates effective technology tools, and that you're connected to a network of resources that allow for professional growth year after year."

- Jonathan Lee, MMD statewide technology support, METC instructional specialist

"Truly one of the most amazing, inspiring and proud moments in my professional career. This is why I'm an educator."

- Amber Heffner, Educator, Instructor and Executive Director at Illinois Computing Educators
