

Teaching in the Fast Lane:

How to Create Active Learning Experiences

with Suzy Pepper-Rollins

This workshop is based on the book, "Teaching in the Fast Lane," and offers teachers a way to increase student engagement: an active classroom. The active classroom is about creating learning experiences differently, so that students engage in exploration of the content and take on a good share of the responsibility for their own learning. It's about students reaching explicit targets in different ways, which can result in increased student effort and a higher quality of work.
