

Technology & Mental Health

April 7, 2020

CESA 12

9 AM - 3 PM

**Presented by:
DPI & Mary Maderich**

This workshop will focus on how technology is designed to get us hooked! We'll look at the affects of technology use on mental health and teen brain development.

Participants will dive into the Information and Technology Literacy standards and the connections to Social & Emotional Competencies.

Early Bird Registration Fee (before March 24, 2020)
