

SMART Response: Assessment for the 21st Century Classroom

CESA #12 Conference Center
November 16, 2011
Registration: 8:30 AM - 9:00 AM
Training: 9:00 AM - 3:00 PM

Overview

This is a training for teachers K-12 who have a SMART Response system for use in their classroom. Ideal for most K-12 classrooms, SMART Response PE includes wireless remotes (or clickers) and powerful assessment software that can deliver formative and summative assessments using a variety of question types. This training will provide educators with everything you need to easily prepare quizzes, tests and exams or spontaneously add questions to lessons. Create your own test material that can be easily integrated into any lesson or assessment activity using SMART Notebook software, and learn how to access hundreds of ready-made SMART Response question sets available on SMART's education website, or import questions and quizzes from third-party software applications and question banks.

Presenter

Mary Maderich, CESA #12 Technology Consultant, has completed the SMART Training Certification for Notebook for Windows and Mac, and has a Smart Response Trainer certification.

ISTE NETS – National Educational Technology Standards for Teachers

NETS Teacher Standards Addressed: 1a, 2c, 5d
