

Safe & Healthy Schools Network Meetings 2019-20

The Safe and Healthy Schools Professional Learning Community meetings are designed to fit the ever-growing needs of our network members. Attendees determine the direction of the meetings by providing relevant ideas to the Safe and Healthy Schools staff. In turn, the CESA 5 Safe and Healthy Schools staff provides outstanding presenters and material for professional collaboration and reflection. The Professional Learning Community meetings allow for networking, resource sharing, and collaborative problem-solving.
