

# Facilitating Learning with the 2019 Wisconsin Standards for World Languages

Contemporary world language classrooms prepare students to be world-ready with functional language proficiency, intercultural skills, and global competence.

Join **Pam Delfosse, DPI World Language and Global Education Consultant** for a one-day workshop that will build understanding and prepare participants to use the revised standards for world language learning in Wisconsin.

Following an introduction to the standards, participants will deepen and check their understanding through collaborative tasks. Participants are encouraged to bring curriculum, units, performance assessments, or lesson plans to use during dedicated time for individual or group standards-based instructional planning.

## Participants will be able to...

1. Explain the vision and components of the revised Wisconsin Standards for World Languages.
2. Identify how the revised Standards will impact how they plan, facilitate, and assess learning.
3. Define professional learning and practice goals for Standards implementation.
4. Plan for learning using the revised Standards.

**Presenter:** Pam Delfosse, DPI World Language and Global Education Consultant,  
Pamela.Delfosse@dpi.wi.gov

**Date:** February 18, 2020

**Time:** 8:30 am-3:30 pm
