1st Annual S T E M Academy

Need more tools and resources to expand your STEM class?

This workshop will provide you with inquiry-based activities that support the 5 C's: Collaboration, Communication, Critical thinking, Creativity, and Global Community. We will look at effective strategies to build future ready, student led classrooms by cultivating curiosity and building student understanding and ownership of their learning. Participants will walk away with easy ways to implement and assess lesson plans.

**Raspberry Pi Basic
Raspberry Pi Advanced
Virtual Reality
Coding with Sphero
Creative Learning Kits
and MORE!!**

Monday, February 10, 2020

9:00 AM - 3:00 PM

**Workshop Location:
CESA 5 - Portage, wi**
