Workshop Description:

Do you have devices and wonder how to use them in a relevant, authentic manner with your students? Don't miss this dynamic learning opportunity that will shift your thinking about teaching and learning!

You make a difference in the lives of our learners every day! With that in mind, are you reaching all learners? Are they engaged and empowered?

Find out how you can take designing, teaching, and learning to the next level with the ISTE Educator Standards Certification. This certification is rigorous, relevant, and will support and give you the mindset, tools, and resources to modernize your pedagogy.

The certification consists of:

- 2 face-to-face workshop days
- 5 online modules (10 weeks)
- Portfolio submission of artifacts aligned to the ISTE Educator Standards (6 months to complete)

Here is what CESA 2 ISTE Certification participants have to say:

"I wanted to send you a quick note and say thank you for all your support during the ISTE certification process - which was amazing. I found out today I was awarded the certification! I couldn't have done it without your guidance."

- Dria Setter - Professional Development Specialist

"What a great feeling! Thank you so much for your guidance! I have loved going through this process. It has made me a better educator!"

- Crystal Ellis - 3rd Grade Teacher and iCoach
