

In partnership with:

REVIEWING UNIVERSAL MATHEMATICS INSTRUCTION

Objectives

- Understand what is required of the Wisconsin Standards for Mathematics with a focus on the Standards for Mathematical Practice.
- Recognize the importance of system-wide practices in instruction, collaboration, and assessment at the universal level.
- Learn about Wisconsin's Guiding Principles for Teaching and Learning in the Mathematics Classroom and examine your current status for each.
- Analyze, prioritize, and plan around actions that will have a positive impact on student learning.

Audience

- School or district teams of three or more (**principal or school/district decision makers such as curriculum director is essential**).
- Representation of general education and special education.
- Support staff specialists including: mathematics teachers, specialists, coaches, and administrators.

School teams will learn how to refine their school-wide implementation of strong universal mathematics instruction. This is an opportunity for district-wide alignment.

2019-20 Training Dates
