

Networking

Early Childhood Special Ed Networking Meetings

Participants in the Early Childhood Network have the opportunity to share and collaborate with other early childhood professionals around evidence-based practices that support the learning of the whole child.

In addition to timely networking topics and updates, the 2019-20 Early Childhood Network series will explore how to maximize inclusive practices, navigating the CCR IEP, and supporting early literacy.

Handouts, resources, and lunch will be provided through the Early Childhood Special Education Discretionary Grant
