

What Works? Using Readers' Workshop to Impact Student Achievement

**CESA #12 Conference Center
February 6, 2020**

**Registration: 8:30 AM
Training: 9:00 AM - 3:00 PM**

In this session, reading/language arts teachers will explore effective teaching practices within the readers' workshop framework. Participants will learn practical teaching strategies, create anchor charts, and explore a variety of resources to use in the classroom around the areas of whole group, shared, guided, and independent reading that support Wisconsin State Standards utilizing your core reading program. This session will help teachers structure their reading/language block and incorporate the gradual release framework effectively for student achievement while instilling a love of reading.

Presenters:

Julie Jensen, CESA #12 Educational Consultant
