

Gifted-Talented Coordinator Workshop

During this workshop, coordinators will work collaboratively around four main topics: determining excellence gaps, culturally and linguistically responsive identification processes, supporting newly identified students/differentiation, and family engagement.

Attendees will also:

- Receive the most up-to-date information from **Mark Schwingle, Ph.D. (Education Consultant - Gifted/Talented, AP, and IB DPI Teaching and Learning Team)**
- Learn about the TOPS tool to increase representation of students in potentially gifted students
- Gain knowledge of the process to implement TOPS tool at the district, school, and classroom levels
- Review WISEDash to identify the disproportionality of Excellent Gaps in local data
- Collaboratively network and learn together

"The Wisconsin Department of Public Instruction (DPI) was awarded a \$1.1 million, three-year Jacob K. Javits Gifted and Talented Students Education grant from the U.S. Department of Education. The purpose of the grant is to support innovative strategies that build and enhance the ability of elementary and secondary schools to meet the needs of high-ability/high-potential students. The major emphasis of the program is on students traditionally underrepresented in gifted and talented education, particularly economically disadvantaged, limited English proficient (LEP), and students with disabilities, to help reduce the serious gap in achievement among these groups at the highest levels of achievement."

- WI DPI

Date: January 27, 2020
