

# 2020-2021 Crisis Prevention Training (CPI)

The training emphasizes creating and maintaining a safe, caring, and respectful environment for staff and students. Participants learn how to defuse challenging and disruptive behaviors before an incident escalates to a crisis situation. Disengagement and holding skills will be taught and practiced by all participants. Benefits include reducing the risk of injury by decreasing the number of physical interventions, improving communication among staff, and increasing staff confidence to intervene early and appropriately.

All participants who successfully complete the post-test will be certified through the Crisis Prevention Institute for two years. The training helps schools meet Wisconsin Act 125 requirements. All trainers are certified instructors through the Crisis Prevention Institute.

Due to the COVID-19 pandemic, all fall training sessions are cancelled at this time. We will regularly re-evaluate the situation and hold training sessions when able to train safely. If you are currently trained, we will evaluate your expiration date on the blue card and extend until further notice. If you have any questions, feel free to contact us.

## Initial Training - 2 Day

The Initial Training is intended for individuals who have not been previously trained in Crisis Prevention Intervention or were trained more than 2 years ago.
