

PRIVACY AND SECURITY: BUILD YOUR WISCONSIN NETWORK

February 4 or 5, 2020

9:00AM to 3:00PM

Check your local CESA for host site information and face-to-face registration

Benefits of attending at a CESA:

F2F facilitation and networking building with conversations, food, off-site opportunity to collaborate with your team, personal and professional accountability (this is a serious topic).

Join us as WI Leaders in the industry of data privacy, data security, and cybersecurity share ideas, best practices, and frameworks to support school districts. Build your "go-to" portfolio of WI resources to help support and scale your security systems. Leave with a level understanding of supports in WI and next steps.

February 4th: Districts with singleton or third party IT.

February 5th: Districts with an IT department of 3 or more people.

Learning Goals:

- Develop a common understanding for WI Schools
- Build your privacy and security networks

District teams may join virtually **HERE!**

This event is funded through partnership with Wisconsin Department of Public Instruction and Wisconsin CESA's
