

Nonviolent Crisis Intervention Training

Thursday, March 5, 2020

9:00 am-3:00 pm

Managing aggressive and violent behavior has become an essential skill relevant to all school personnel. Staff members need safe, effective behavior management training designed to maintain the care, welfare, safety, and security of all involved in a crisis. Teachers and support staff will explore a range of “risk behaviors” and practice appropriate de-escalation strategies to address these behaviors while maintaining the best possible professional attitude.
