

# LIMITING STRESS IN THE CLASSROOM: A LOVE & LOGIC APPROACH TO SUCCESS

July 22-23, 2020 9am- 3pm

Presented by Chris Peterson, The Parenting Professor

Let the Kids be Tired! A Love and Logic approach for working with kids. Love and Logic is a philosophy of teaching children which allows adults to be happier, empowered, and more skilled in the interactions with children. It is a way of working with children that puts teachers back in control, teaches children to be responsible, and prepares young people to live in the real world, with its many choices and consequences. Learn about the building blocks of Love and Logic and how it helps us become effective and efficient educators. Be prepared to ask questions and role play common (some not so common) situations that we meet on a daily basis as we look at the 9 (or more) skills/strategies to make teaching a breeze.

**Cost: \$300 per  
person**
