

Using DIBELS Data to Assist in the Rtl Process

**Friday, October 21, 2011
CESA #3 – Conference Rooms C/D
9:00 a.m. – 3:30 p.m.
Check-In: 8:30-9:00 a.m.**

DIBELS has proven to be one of the most popular and successful early reading assessments in the country. Educators know that using the DIBELS testing process can accurately predict future reading ability and reveal the specific areas of improvement a young reader needs. But after you test with DIBELS, what do you do with the data you've gathered? How do you use the DIBELS assessment information to help improve the reading ability in your students? How do you use the DIBELS data to assist with the Rtl (Response to Intervention) process? This workshop will walk you through the answers to these questions and prepare you for what steps you should be taking after you have completed the DIBELS testing.

**Presenter: Carol Lynn Wheelock-Mashlan, CESA #3
Reading Specialist, Assistant Director of Special Education**

Cost (per person):

\$45.00 – ESEA Member & CESA #3 Special Ed. Consortium Districts (Barneveld, Benton, Cassville, Potosi, Shullsburg, Southwestern, Wauzeka, Weston)

\$75.00 – Nonmember/Consortium Districts

Materials and Lunch provided.
