The purpose of the 100-Day Plan is to create a roadmap for making improvements in the organization, providing a clear directional map of the necessary action steps, timeline, people responsible for assignments, and the success indicators. It strengthens the collective commitment to the work and moves topics of discussion to action steps and then to fulfillment, creating a clarifying record of the prioritized changes that are critical to improving staff and student performance.

Join us for focused trainings across the next 100 days to create your own 100-day plan for opening the 2020-21 school year in your school or district. You may choose to send one team or multiple teams, and it is recommended that you send a team to all sessions for your complete 100-day planning needs. You may also choose to attend the sessions that are most closely aligned with their work if you are already in the midst of 100-day planning. Sessions can be attended as a package or you may choose for your team(s) to attend only those offerings that meet your current planning needs.

Action Steps <i>To achieve our goal of full PLC implementation, what action steps need to be taken to realize the next level of success?</i>	Audience (Diverse Stakeholders) <i>Who needs to be involved in this action or decision?</i> Recommended team composition for each workshop:	Timeline <i>Is there a schedule?</i>	Responsibility <i>Who is responsible? What is the role of leadership?</i>	Registration Fee <i>Fees represent cost per participant - Teams are recommended</i>
